Front-End	Back-End	Database	Source Control	UI-Frameworks
HTML5 / CSS3	Node.js	MongoDB / Mongoose	Git	Material-UI
JavaScript	Express	SQL Server	GitHub	Ant Design
React	C# / .NET Core	Entity Framework	Scrum / Agile	

Professional Experience

Faithlife / Software Developer Intern

August 2020 - December 2020: Bellingham, WA

- Developed a custom theme editor using React and Less that allows internal UX/UI designers to build new theme sites without support by software developers
- Worked closely with UX/UI team and team members to maintain 7 existing and 3 new theme sites utilizing React, Less, and ASP.NET through a 14-week software developer internship program
- Wrote unit testing in React with Cypress to ensure that new changes meet quality standards before deployment

Faithlife / Korean Product Manager

July 2015 - August 2020: Bellingham, WA

- Managed short and long term launch plans to successfully release 4 products, working with 6 cross-functional departments
- Developed and maintained a detailed budget for advertising, content production, and localization
- Increased sales revenue each year by 92% on average
- Analyzed sales performance and created enhanced market strategies, including social media, e-mail, and SEO tools to develop product positioning
